

NATURAL FRIENDLY  
DOLPHIN CERTIFICATION

*Natural Friendly* is Via Delphi's seal of approval. It certifies that we are fulfilling the ten basic principles which outline our commitment to our environment and society as a whole. It is our guarantee that our educational dolphin interaction programs are the best and safest you will find for all concerned, promoting learning, commitment to the preservation of our global eco system and respect for the world we share with all living creatures. Our programs go far beyond merely swimming with dolphins. They are designed to create true bonding experiences with our closest friends from a world that is mostly unknown to us.

COMMITMENT

Each time you enjoy the experience of interacting with the dolphins at Delphinus Dreams Cancun, or purchase our merchandise, you are fostering our important work to preserve marine environments and our other research on dolphins. This also helps us insure their continued well-being as a species through our prestigious reproduction programs.
